"Turning Ideas Into Projects — Projects Into Landmarks"

1. INTRODUCTION

Mapheto Engineering and Trading (Pty) Ltd is a proudly South African, 100% black-owned engineering and construction company headquartered in Apel, Limpopo Province. Established in 2022, the company has rapidly built a verifiable track record of delivering complex, high-value electrical infrastructure projects for some of South Africa's most demanding clients, including Eskom National Transmission Company South Africa, the Gauteng Provincial Government, Mangaung Metro Municipality, and Rustenburg Local Municipality.

Operating across the full spectrum of electrical engineering, civil construction, and project management, Mapheto Engineering and Trading has positioned itself as a trusted delivery partner for government, municipalities, and state-owned enterprises throughout South Africa and the broader SADC region. In under three years of operation, the company has successfully completed contracts with a combined value exceeding R42,000,000, demonstrating both technical competence and commercial reliability.

The company is led by Mr Kamogelo Makola Mapheto, a results-driven engineer and entrepreneur whose hands-on approach to project execution and commitment to community development defines the Mapheto identity. Under his leadership, the company has delivered every certified project on time and to the satisfaction of the client — a track record that speaks for itself.

2. VISION, MISSION AND VALUES

OUR VISION

To be a world-class provider of electrical engineering services and strategic project management solutions, recognised for excellence in delivery across South Africa and the African continent.

OUR MISSION

To deliver engineering infrastructure that transforms communities — on time, within budget, and to the highest technical standards — while creating sustainable employment and building lasting partnerships with our clients and stakeholders.

OUR VALUES

- Integrity — We conduct ourselves with honesty and transparency in every engagement.
- Excellence — We set and maintain the highest standards of technical and operational delivery.
- Community — We invest in the people and places we work in, prioritising local employment and skills development.
- Collaboration — We build long-term partnerships with clients, co-contractors, and suppliers built on mutual respect and shared objectives.
- Accountability — We take full ownership of our commitments and stand behind our work.

Email	admin@maphetoengineering.co.za
Website	www.maphetoengineering.co.za

4. CORE SERVICES

Mapheto Engineering and Trading provides a comprehensive range of engineering and construction services, structured across the following disciplines:

4.1 Electrical Engineering

- High Tension (HT) and Low Tension (LT) cable works, stringing, jointing and termination
- 400KV, 88KV and 66KV overhead powerline construction and rehabilitation
- Substation construction, refurbishment and commissioning
- Electrical infrastructure maintenance for commercial and government facilities
- Switchgear, transformer and UPS maintenance and installation
- Electrification projects for residential and commercial developments
- Electrical engineering design and consulting

4.2 Civil Engineering and Construction

- Roads construction and maintenance
- Water and sanitation infrastructure
- Civil water reticulation
- Construction of schools, government buildings and community facilities
- Residential housing construction
- Slurry pumps, valves, and water and wastewater pump installation

4.3 Project Management

- End-to-end project management for infrastructure and construction projects
- Business continuity management and disaster recovery planning
- Risk identification, assessment and mitigation
- Programme management for multi-contractor projects

4.4 Supply and Delivery

- General supply and delivery of engineering materials and equipment
- Meter reading and bush clearance services

5. VERIFIED PROJECT TRACK RECORD

The following projects have been completed by Mapheto Engineering and Trading (Pty) Ltd and are supported by official Certificates of Completion and Notification of Completion letters issued by each respective client. Combined verified contract value: R42,443,312.

#	Client	Project Description	Value	Period	Outcome
1	Eskom NTCSA (JV with Kmphak's Electrical CC)	Stringing and regulating of Medupi Ngwedi 400KV overhead powerline — 150 towers, 45.6km, Northern Grid Servitude. Scope: foundation works, steel erection, conductor stringing and crimping, conductor termination.	R29,648,911	Mar 2024 – Nov 2024	Completion certified by Eskom Service Manager. Contract ref: 4600077327.
2	Gauteng Province — Infrastructure Development	Electrical infrastructure maintenance of switchgears, transformers and UPS across various government buildings and offices throughout Gauteng Province. 12-month maintenance contract.	R2,694,342	Jun 2023 – Jun 2024	Completion certified by Head of Department, Ms Masabata Mutlaneng.
3	Mangaung Metro Municipality	Rehabilitation and refurbishment of 88KV transmission line — 15km underground. Completed in compliance with municipality Technical, SHEQ and Procurement Policies.	R5,994,623	Sep 2023 – Mar 2024	Completion certified by Technical Manager: Dawie Coetzee. Municipality confirmed satisfaction with work delivered.
4	Rustenburg Local Municipality	Construction of new 66KV 10km line from Rustenburg CBD substation to Tlhabanewest substation. Works order: D0217.	R4,105,436	Apr 2023 – Sep 2023	Completion certified by Superintendent Distribution, Distribution Engineer, and Head of Electrical Engineering Services.
TOTAL VERIFIED CONTRACT VALUE			R42,443,312	4 projects — 100% completion rate	

Certificates of Completion available on request for all projects listed above.

6. B-BBEE PROFILE AND TRANSFORMATION

Mapheto Engineering and Trading (Pty) Ltd holds a Level 1 B-BBEE Contributor status — the highest possible rating under the Broad-Based Black Economic Empowerment framework. The company is 100% black-owned and qualifies for the maximum 135% procurement recognition, making it an ideal partner for government departments, municipalities, state-owned enterprises, and private sector entities seeking to fulfil their procurement transformation obligations.

B-BBEE Level	Level 1 Contributor
Procurement Recognition	135% — Maximum recognition level
Black Ownership	100%
Enterprise Type	Exempted Micro Enterprise (EME)
Qualifying Criteria	Black youth (100%) — Black people in rural and underdeveloped areas (100%)

What 135% Procurement Recognition means for our clients:

For every R1.00 spent with Mapheto Engineering and Trading, the procuring entity may claim R1.35 in B-BBEE procurement spend recognition. This provides a significant scoring advantage for clients managing their own B-BBEE compliance and makes Mapheto Engineering and Trading a strategically valuable supply chain partner at no additional cost premium.

7. GEOGRAPHIC FOOTPRINT

Mapheto Engineering and Trading has successfully delivered projects across multiple provinces and is equipped to operate nationally and within the SADC region. Completed projects span:

- Limpopo Province — company headquarters and primary operating base
- Gauteng Province — government infrastructure maintenance across multiple sites
- Free State (Mangaung Metro) — high-voltage transmission rehabilitation
- North West (Rustenburg) — high-voltage substation connection
- Northern Grid — Eskom national transmission infrastructure (Medupi, Lephalale area)

The company is registered on the Central Supplier Database (CSD) and is positioned to respond to procurement opportunities from national, provincial, and municipal entities throughout South Africa and the broader SADC region.

8. WHY MAPHETO ENGINEERING AND TRADING

Proven Delivery

R42.4 million in completed, certified contracts across Eskom, two municipalities, and a provincial government. Every project delivered to client satisfaction.

Maximum B-BBEE Value

Level 1 status with 135% procurement recognition. Partners and clients maximise their transformation scorecard at no additional cost.

National Footprint

Active delivery across Limpopo, Gauteng, Free State, and North West. Registered on CSD and positioned for national and SADC procurement.

Community Commitment

Based in Apel, Limpopo. Deeply rooted in the Bapedi community. Prioritises local employment, skills development, and long-term community benefit on every project.

Choosing the right engineering partner is not merely a procurement decision — it is a commitment to outcomes, and outcomes demand a partner with the discipline to deliver when it matters most. Mapheto Engineering and Trading brings together technical depth, institutional credibility, and the kind of ground-level operational experience that only comes from executing complex, high-voltage infrastructure projects under real conditions across multiple provinces. We have earned our reputation not through declarations, but through completion certificates signed by some of South Africa's most demanding clients — from Eskom's National Transmission Company to metropolitan municipalities and provincial government departments.

Our Level 1 B-BBEE status is not a compliance exercise; it is a reflection of who we are, where we come from, and the community we are accountable to. Every project we undertake carries the full weight of our name, our values, and our commitment to leaving the infrastructure we build better than we found it. We are a company that understands the pressure of a delivery deadline, the consequences of a substandard installation, and the lasting impact that well-executed infrastructure has on the communities it serves. When you choose Mapheto Engineering and Trading, you are not appointing a contractor — you are partnering with a team that treats your project as if it were our own.
